

A Dollar's Worth Free To Any Rheumatic Sufferer

I ask no deposit—no reference—no security—nothing to risk—nothing to promises—nothing to pay, either now or later. Any rheumatic sufferer who does not know my remedy may have a full dollar's worth free to try.

I willingly make this Dr. Shoop's Rheumatic Remedy may be relied upon ALWAYS to bring the utmost relief that medicine can. Years before I discovered this remedy, I studied the nature of Rheumatism. For Rheumatism is really

Crystallized Poison!

Your blood is always full of poison—the poison you eat and drink and breathe into your system. It is the purpose of the blood to absorb and carry off this very poison. And the kidneys, which are the blood filters, are expected to cleanse the blood and send it back through the system clean, to gather more poison which they, in turn, will eliminate.

But sometimes the kidneys fail. And sometimes from some other cause, the blood is not full of poison, but it cannot absorb it all. This is the start of Rheumatism. The poison accumulates and crystallizes. The crystals look like little grains of sugar or fine white sand. The blood carries them about, increases in size, until when it can carry them no longer, it deposits them in a joint—on a bone—anywhere.

The twinge in your leg—the dull ache in your arm on a rainy day—these are the outward signs of the disease. And the twisted limbs and unendurable anguish of the sufferer who has allowed his symptoms to go unchecked and untreated for years—these are the evidences of what Rheumatism, neglected, can do.

Rheumatism is a nervous disease, neuritis, neur—“for all these are the results of rheumatic poison in the blood.”

Simply Write Me

The offer is open to everyone everywhere, who has not tried my remedy. But you must write me for the package order. I will send you an order on your druggist, which he will accept as gaily as he would accept a dollar. He will hand you from his shelves a standard sized package and he will send it to you at once. In all it costs me \$4.90 per pound. But what is \$4.90 per pound for a Remedy which removes the painful disease? for a REAL relief from the greatest torture human beings know?

I don't mean that Dr. Shoop's Rheumatic Cure can turn bony joints into flesh again—that is impossible. But it can relieve the suffering.

This chemical was very expensive. The duty, too, was high. In all it costs me \$4.90 per pound. But what is \$4.90 per pound for a Remedy which removes the painful disease? for a REAL relief from the greatest torture human beings know?

The swing in your leg—the dull ache in your arm on a rainy day—these are the outward signs of the disease. And the twisted limbs and unendurable anguish of the sufferer who has allowed his symptoms to go unchecked and untreated for years—these are the evidences of what Rheumatism, neglected, can do.

Rheumatism is a nervous disease, neuritis, neur—“for all these are the results of rheumatic poison in the blood.”

Plainly the first thing to do is to remove the poison. But this is not enough. The FORMATION of the poison must be stopped. That, naturally, may have a chance to dissolve and eliminate the crystals which have already formed. Unless this is done there can be no cure—no permanent relief.

Take the whole earth for a specific for Rheumatism—something that I or any physician could feel safe in prescribing—something that we could count on not only occasionally, but ALWAYS. For the ravages of Rheumatism are everywhere and genuine relief is rare.

Mild cases are sometimes cured by a single package—On sale at forty thousand drug stores.

Dr. Shoop's Rheumatic Remedy

DESCRIBE TAKING OF BRIBE

TESTIMONY BEING GIVEN IN TRIAL OF EX-SENATOR BUNKERS.

SACRAMENTO, April 19.—The taking of testimony in the case of Harry Bunkers, the deposed State Senator who was indicted for bribery, was commenced this forenoon in Judge Hart's department of the Superior Court.

The first witness called was Clarence Grange, secretary of the Phoenix Savings and Building and Loan Association of San Francisco. He told over again the story as he had told it to the Senate investigating committee, of how he was approached by Joseph Jordan, a newspaper reporter, who had told him that building and loan associations were to put up the cash by the committee on commission and retrenchment and that the matter could be fixed with money.

He then went on to tell about giving money Jordan when he last passed it, or claimed he did to Senators Bunkers, French, Wright and Emmons.

Gavin McNab, attorney for the Continental Building and Loan Association, also claimed for the same amount as on the witness stand this forenoon. He told of seeing Grange delivering envelopes, supposed to contain money, to two detectives.

It is expected the trial will last ten days.

These are exceptional values and will sell quickly at these prices.

RAILROAD MEN TRICKED BY A "CRIPPLE".

Tells Story of Having Lost Leg in Accident, But "Missing"

Member is Found.

Victims from tricksters and frauds are unusual at the West Oakland railroad yards, but mendicant cleverer than the game one has recently been making visits that have left many of the enterprisers wiser but poorer men.

This latest one to prey upon the susceptibility of the railroad men poses as a former brakeman. He apparently has one leg cut off at the knee, and he tells a pathetic story to his victims of having lost the member in a railroad wreck in the East. He came West, he says, with his wife and baby son, but has been unable so far to secure it. With this tale was the stranger, who gives the name of Joseph Martin, a separated several children with their owners, and is believed yesterday that the railroad men learned of the fraud.

From the manner in which the supposed cripple acted, the police believe that his victims were gullible. When the mendicant left the yards yesterday, John Griffith, one of the employees of the car shop, followed him and was rewarded by seeing him drop a handkerchief and unfold a limb that was as sturdy as the one on which he walked. Griffith gave chase, but the mendicant sprang up the street on his two legs with ease and was soon out of sight. He threatened to threaten all sorts of vengeance should the man reappear in search of more alms.

WRECK CREW RETURNS

No damage was done to the engine and freight car that jumped the track at Napa Junction yesterday. The crew, which had left here Monday afternoon, has returned and its members report that the accident was caused by a spreading of the rails, probably due to the warm weather that has prevailed in the Bay area.

Neither the engineer nor the fireman of the wrecked locomotive was injured, and only a few minor repairs will be necessary on the engine and car.

SYSTEM FRENCHED

The system of paying by checks disbursed by assistant paymasters has been renewed, to the satisfaction of the railroad men. A short time ago the company decided to have the paymaster pay all the salaries in checks, but the plan was required to be identified. This plan caused much trouble and annoyance to the employees and was petitioned to have the old method renewed. It was sent to Superintendent Palmer. It was signed by a petition that under the new order some of the men were compelled to wait for several days before receiving their salaries. The return to the old method was granted and when the pay car stopped at

the shops Monday each man received his wages without delay.

GENERAL NOTES

The work of repairing the tracks crossing the main line at the approach to the yards is rapidly being completed. A large force of men is at work and it is expected that the repairs will be completed by the end of the week.

The Pacific Railway Club will hold its next meeting at the Palace Hotel, San Francisco, May 18. It will continue the annual social preserving which was begun last December.

The company is erecting a flagpole in the yards of the motive power department. A steel cast thirty feet in circumference will be built with cement as a foundation for the pole.

PERSONAL ITEMS

William Gillig, a fireman who has been on account of illness, has returned to work.

John Johnson has so far recovered from his recent illness that he expects to return to work by the first of next month.

In the meantime he will recuperate at Acacia Springs.

P. F. Davis, who has been detailed at Mendota for the last month, has resumed his duties in the motive power department. He acted as foreman of the round house at Mendota during the absence of C. G. Burk, machinist, who has gone to Fresno for a week's vacation.

TELLS OF HYDROPHOBIA WHILE HE IS DYING

NEW YORK, April 19.—Louis D. Ellwinge, 21 years old, of Millburn, N. J., died of hydrophobia yesterday at the hospital. His case was considered interesting by the fact that the sufferer never overcame his fear of water, and he was enabled to keep him between the convulsions that shook every fibre of his body to aid the physician in studying the disease. He died Saturday morning at 6 a.m. after a agonizing minute, and died with the knowledge—comforting or not—that although young and unheard of, he had probably given his life to science and consequently to humanity.

Five months ago Ellwinge was petting a dog sent to him by a friend. The animal bit him on the lip, face and nose. Since that first symptom of hydrophobia appeared and Ellwinge was taken home and placed in a strait jacket. In moments when his mind was clear and his body free from the awful disease he would talk of his disease. Ellwinge talked lucidly. He leaves a young wife, whom he married seven months ago.

ANNIVERSARY OF A GREAT BATTLE

BOSTON, April 19.—The anniversary of the battle of Lexington, traditionally observed as a "patriots' day," was marked today by many observances throughout the commonwealth, particularly in Boston and its vicinity.

TUBERCULAR CONSUMPTION

ATLANTA, Ga., April 19.—Dr. Henry O. Marcy of Boston delivered an address on the perils of tubercular consumption. He said:

"Although the field of tuberculosis is a dangerous and limited one, the surgeon and his interlocutor made a most valuable contribution toward the welfare of the men who were compelled to wait for several days before receiving their salaries. The return to the old method was granted and when the pay car stopped at

RHEUMATISM

Great Interest in Coming Election of Head Consul.

Note to Minister Barrett Was Not Very Harmonious.

Mayor Mott Protects First Mongolian to Be Pursues of City's Employees.

WILL INSIST ON NEUTRALITY

LOS ANGELES, April 19.—The convention of the Pacific division of the Order of Modern Woodmen of the World convened in their second day's session at 10 o'clock this morning.

The early part of the day was taken up with the consideration of routine matters and little work of importance was accomplished.

Great interest is being manifested in the election of a successor to Head Consul Foley, which will take place tomorrow morning at 10 o'clock. So the fight is between Foley and L. I. Boals of Denver, present head clerk of the order, with A. B. Scott of Butte, Mont., a likely choice in the event of a deadlock between the supporters of the two leading candidates. Much politicking is being played and the partisans of both Foley and Boals profess to be confident of the success of their respective candidates.

The election of officers for the Women of Woodcraft will probably take place tomorrow or Friday.

Salt Lake is making the most strenuous effort of any of the cities to secure the location of permanent headquarters of both the Woodmen and Women of Woodcraft.

A telegram was received today by the City Council of Salt Lake pledging the donation of a \$30,000 building lot to the Woodmen for their headquarters there, and also a pledge of a \$15,000 lot to the co-ordinate women's branch for the location of its headquarters.

None of the other cities that are competing for the location have as yet made any such inducements.

COMMENCEMENT AT SAN ANSELMO

AWAKE TO FIND WIFE DEAD

PLEASANTON WOMAN PASSES AWAY AS SHE SLEEPS.

PLEASANTON: APRIL 19.—Mrs. Lena Rona, a German house wife, aged fifty-three years, died last night while she slept.

There was no premonitory sign indicating that death was near when she retired last night. She had been in good health and good spirits.

Her husband awoke this morning at 6 o'clock to find his helpmate a corpse.

The body was cold and there was no means of telling when death occurred.

The husband states that his wife had made no complaints of feeling unwell and that her death was a terrible surprise to him.

Coroner Mehrmann was notified by telephone this morning of the woman's sudden death and directed the Deputy Coroner to take charge of the remains.

Three children besides a husband survive the deceased.

WOUNDED GIRL WAS MARRIED

GERMANY'S ATTITUDE IS IN DOUBT

HEERON, Nebraska, April 19.—Miss Bessie Helen Davis, the chorus girl who was shot yesterday in Philadelphia by Edward Smedes, formerly lived here. Miss Davis was married in Heron by Benjamin Rogers, some years ago. They separated and she went on the stage.

TO INVESTIGATE THEIR RECORDS

George Mason and John Wilson, two men whom the police believe to be two clever Eastern crooks, were held in \$500 cash bail this morning by Police Judge Smith on a charge of petty larceny. In police slang they are "short change" artists and are accused of obtaining \$5 from J. F. McVey, a saloonman at 1249 Broadway street, by trick and device.

Judge Smith put their trial over until May 11th and in the meantime the records of the two men will be carefully investigated.

PERSONAL ITEMS

William Gillig, a fireman who has been on account of illness, has returned to work.

John Johnson has so far recovered from his recent illness that he expects to return to work by the first of next month.

In the meantime he will recuperate at Acacia Springs.

JURY FOR BUNKERS CHANGES IN MILITIA

Trial of Accused Senator is Resumed This Afternoon.

SACRAMENTO, April 19.—When the trial of ex-Senator Harry Bunkers was resumed before Judge Hart in the Superior Court this afternoon there were nine sworn jurors in the jury box. Three more will be selected this afternoon out of a special venire of twelve summoned by Sheriff Reese.

The nine men chosen as the result of the first day's examination of talesmen are: Henry Rubenstein, C. Gronlund, George P. Utman, W. E. Wright, L. M. Johnson, P. J. French, E. Michel, W. G. Conklin and Asa Uven.

Mr. Rubenstein is a resident of Sacramento. He conducts a barber shop and bath house on K street.

C. Gronlund is a farmer residing near this city. He is a man of excellent reputation among his neighbors.

George P. Utman is the superintendent of lots at the Sacramento City Cemetery.

J. H. Hayden is a farmer, his place being but a few miles from town.

Peter Humerich is a Sacramenter, and is in the employ of the Southern Pacific Company.

F. E. Michel is a retired capitalist residing here.

W. G. Conklin is engaged in the real estate business in this city.

Asa Uven is one of the most repected orchardists of Orangesvale.

It is believed that the three additional jurors can be secured during the first hour of the afternoon session.

Later this afternoon the jury was completed, the following three more being selected: W. H. Griesel, G. Beckley and J. D. Lockart.

PREVENTION OF TUBERCULOSIS

ATLANTA, Ga., April 19.—The second day session of the American Anti-Tuberculosis League was marked by an increased attendance of physicians. The papers read today followed the subject of treatment of tuberculosis in its various forms.

Dr. Augustus P. Clark of Cambridge, Mass., delivered an address on "Some Clinical Experiences in the Treatment and Prevention of Tuberculosis." He said in part:

"The suppression of or the greater restriction against the carrying on of noxious trades or methods of manufacture has been an important factor in the welfare of the public health. Not only have such buildings or premises been made to conform to the requirements of the public statutes and the location to which used was sufficiently remote from surrounding dwellings has been instrumental for great good."

"Indeed, the Boards of Health have in our own State almost unlimited power for the abatement of unsanitary conditions. The same does not hold true for allowing such conditions to continue. Such members are amenable to the appointing power and may be subject to the action of the Grand Jury."

BAND CONCERT TO BE GIVEN

One of the best after-Easter treats of the season will be the band concert and dance tendered to Company L. League of the Cross Cadets, by the League of the Cross Band of San Francisco at the West Oakland Auditorium, on Tenth street, near Ferndale, Wednesday evening, April 26.

The reputation of this band has spread throughout the State as being one of the best both as to its music and numbers, there being fifty-one musicians in its membership.

It will be remembered for its playing at the last Oakland Fourth of July celebration, when it headed the L. C. C. regiment in the parade.

Besides the band numbers there will be vocal and vaudeville selections, after which the band will play.

The affair is in charge of Lieutenant John Teener and a committee of cadets from the company, for whose uniform rank the proceeds will be used.

NOT A MU DERER, ONLY A TRAMP

GRIDLEY, Cal., April 19.—The fact that the man arrested by the Gridley police and held on suspicion that he was Tortorici, the alleged murderer of Vilaro, is a harmless tramp, was confirmed today by Detectives V. Burner of San Francisco, who arrived here last night. The suspect has been released.

"BEEF TRUST" CASE WITNESS MISSING

CHICAGO, April 19.—A sensation was caused among Federal officials in the investigation of the alleged "beef trust" today when it developed that a much-sought-for witness has left Chicago. The witness is Carl Levi, head of the Berthold & Levi Sausage Casing Company of this city.

A servant at the home of Mr. Levi said that he had left Chicago more than a week ago and that a short time after his wife followed. No information is given as to their destination.

DEFENDS HIS RESOLUTION.

ALBANY, N. Y., April 19.—Senator Brackett in the Senate today spoke at length on his resolution to take from the Committee on Insurance, where he believes it will be more likely, his bill to seek a state-wide policy holding out for insurance according to the section of the insurance law which requires the approval of the Attorney-General before such an action can be begun. The measure is one of four others introduced by Senator Brackett as the result of the Equitable Life Assurance Society tangible.

Adjutant Lauk Gives Orders About the Brigades.

SACRAMENTO, April 19.—Adj. J. B. Lauk today announced the assignment of counties to brigades, under the provisions of the new law passed by the Legislature and now in effect. The new law provides for two brigades, the first and the second, while under the old law there were three.

The headquarters of the First brigade will be Los Angeles, and the brigade will comprise the counties of Los Angeles, Monterey, Orange, Riverside, San Diego, San Bernardino, Santa Barbara, San Luis Obispo, San Joaquin, Fresno, Merced, San Joaquin, Stanislaus, Tuolumne and Tuolumne.

The headquarters of the Second brigade will be at Sacramento temporarily, and Colonel Seymour will be in command, as there is no brigadier-general at present.

The Second brigade will comprise the following counties: Alameda, Contra Costa, Delta, Humboldt, Lake, Mendocino, Marin, Napa, Santa Cruz, Sonoma, Santa Clara, San Mateo, San Francisco, Amador, Delta, Colusa, El Dorado, Glenn, Modoc, Nevada, Placer, Plumas, Shasta, Siskiyou, Sierra, Sacramento, Solano, Tehama, Trinity, Yolo and Yuba.

The Second infantry, with headquarters at Sacramento, will comprise the following counties: Alameda, Contra Costa, Delta, Humboldt, Lake, Mendocino, Marin, Napa, Santa Cruz, Sonoma, Santa Clara, San Mateo, San Francisco, Amador, Delta, Colusa, El Dorado, Glenn, Modoc, Nevada, Placer, Plumas, Shasta, Siskiyou, Sierra, Sacramento, Solano, Tehama, Trinity, Yolo and Yuba.

The Second infantry, with headquarters at Sacramento, will comprise the following counties: Alameda, Contra Costa, Delta, Humboldt, Lake, Mendocino, Marin, Napa, Santa Cruz, Sonoma, Santa Clara, San Mateo, San Francisco, Amador, Delta, Colusa, El Dorado, Glenn, Modoc, Nevada, Placer, Plumas, Shasta, Siskiyou, Sierra, Sacramento, Solano, Tehama, Trinity, Yolo and Yuba.

The Second infantry, with headquarters at Sacramento, will comprise the following counties: Alameda, Contra Costa, Delta, Humboldt, Lake, Mendocino, Marin, Napa, Santa Cruz, Sonoma, Santa Clara, San Mateo, San Francisco, Amador, Delta, Colusa, El Dorado, Glenn, Modoc, Nevada, Placer, Plumas, Shasta, Siskiyou, Sierra, Sacramento, Solano, Tehama, Trinity, Yolo and Yuba.

The Second infantry, with headquarters at Sacramento, will comprise the following counties: Alameda, Contra Costa, Delta, Humboldt, Lake, Mendocino, Marin, Napa, Santa Cruz, Sonoma, Santa Clara, San Mateo, San Francisco, Amador, Delta, Colusa, El Dorado, Glenn, Modoc, Nevada, Placer, Plumas, Shasta, Siskiyou, Sierra, Sacramento, Solano, Tehama, Trinity, Yolo and Yuba.

The Second infantry, with headquarters at Sacramento, will comprise the following counties: Alameda, Contra Costa, Delta, Humboldt, Lake, Mendocino, Marin, Napa, Santa Cruz, Sonoma, Santa Clara, San Mateo, San Francisco, Amador, Delta, Colusa, El Dorado, Glenn, Modoc, Nevada, Placer, Plumas, Shasta, Siskiyou, Sierra, Sacramento, Solano, Tehama, Trinity, Yolo and Yuba.

OAKLAND

Board of Trade Tells
of the City's Progress

FORGING

H. C. Capwell Can See Re-
sults from Good Work

TO FRONT

The Oakland Board of Trade held its annual meeting at the rooms of the board on Twelfth street last night and heard the reports of officers. Directors were also elected for the ensuing year. The board will meet next Friday evening and elect officers.

PRESIDENT CAPWELL.

President H. C. Capwell presided. He made his annual report as follows:

"It has been customary for previous presidents of the Board of Trade to read a carefully prepared address, after a short report and they have tried in parallel lines. I hardly believe it is necessary for me to do anything of that kind and I am not prepared to give a long-winded address.

"I will simply touch on a few points as to what we have done. The secretary's report will give all facts and I am satisfied you will find lots of interest in it. I do want to say that the year just closing has been one of great satisfaction to the Oakland Board of Trade and you know that Oakland is progressing. I want you to know that Oakland is right up with the band wagon. I am glad to say that this has really been the banner year and much more has been accomplished than in any previous year.

YOU HELPED.

"The circular which you all received was probably an eye-opener to some of you and I hope such was the case. You will observe that it starts out: 'You have helped during the past year, to send over three hundred thousand pieces of illustrated literature descriptive of Oakland and Alameda county. I just want you to stop and think for the sacrifice you make of 1 a month we have been able to do this. No doubt you do not think of the good you have done. This literature has avenged a great debt you owe to the people of the East, but in Europe and Australia, Mr. Stearns has distributed literature to many of those points.'

THE EXCURSIONS.

"You have helped by means of the 'All Day for a Dollar' excursions conducted by the Board of Trade to introduce over seventeen hundred non-residents to Oakland, many of whom have become permanent residents through having taken the trip. I want you to know that you have helped that because if it had not been for the Board of Trade and the fact that your dollar contributed with other dollars made it possible to have these excursions, they would never have been undertaken. We have had no help from other cities for advertising these trips except \$25 when they were first taken two years ago from Berkeley Board of Trade. They go to Hayward, Fruitvale, San Leandro and Berkeley, but we cannot arouse any interest in those places. They cannot realize that the people stop there and that they take an interest in their cities. We can get no help from them and we hope very shortly to change the route of the excursion so as to take in Alameda.

BETTER SERVICE.

"We should insist that we get better service between here and outlying districts than between here and San Francisco. People of Alameda have written letters asking me to do something to relieve the condition between here and Alameda. I believe the Board of Trade will attempt to make the proposition of improving the service to the ones who can help this condition, and I believe that they would do it. Whatever they are doing is certainly not against us. It is only a short time until facilities will be better and we will reap the benefit. Good transportation facilities to Point Richmond are now open to Oakland merchants and Oakland professional men and bankers. These people may want to bring money here. They are going ahead over there.

NEW RAILROAD.

"We notice Contra Costa county is going to build a line through the tunnel. Our sister organization did a great deal of good work on that tunnel proposition. They took it into their heads to build a tunnel and I am glad they did so, as Contra Costa county is coming down through that tunnel with a railroad that will help us all. We want all the newcomers we can get, and I do not believe that the Board of Trade should do any part in the future than it has in the past.

TO THE DIRECTORS.

"Before taking my seat I want to say to the outgoing Directors, some of whom will step aside, that I want to thank them for their support. Thanks are due the members as they did a great deal for us.

MANY LETTERS.

"You have helped with your dollar a month to create a fund that made it possible for the Oakland Board of Trade to answer by letter the questions asked by nearly four thousand people from various parts of the United States and Europe.

That is the cost, and if you will stop and think of the work done here, and if you will think of the direct letters written to over four thousand people, you will see that there is something being done here. The members of the board thanked for their support. Those who are not here are evidently satisfied with our work. Greater thanks due you for coming out and showing that you are more interested than the men who do not come out.

"Do you believe that one-tenth of that which has been accomplished would have been accomplished but for the Board of Trade? You know that that which everybody waits for some one else to do is not accomplished. Not only in Oakland, but in other parts of the State, it is common that there is no organization which brings results. That which has been done is evidence of the necessity of keeping alive an organization of this sort. I do not want to talk to you as though you need it, but I am talking so that you can spread the news."

AT SAN JOSE.

"I went to San Jose to talk before the Merchants' Association recently, and learned that there was not a merchant that did not belong to that organization. I learned that they also had a Chamber of Commerce that every good citizen belonged to, and that they cheerfully paid two dollars, not one a month. The results are good and that city has an elegant hotel, which is more than we can boast of. If we could only do as much, we could get a thousand-dollar total, too. We want more than \$1,000 a month from you, we want your interest and co-operation. We are not satisfied with the present membership, we want everybody as a member that is interested in the growth of the city, and we want every one of you to get another member. Some have done so and have secured as many as thirty-seven. I am satisfied that many of you during the day meet as many as fifty men on the street, and you can bring some of them in, and I want you to help do so.

LOS ANGELES.

"In Los Angeles the Supervisors turn over the entire sum for advertising, which is from \$22,000 to \$24,000, to an organization for expenditure by them in advertising the city and the entire city and county. The Supervisors realize that an association can accomplish more than they probably would, and I believe the Supervisors here should give us an appropriation, and I believe it is the best money they could spend. I do not believe that any citizen would ever run out that they were too liberal.

NOT A MENACE.

"I have heard it said by some merchants, I am sorry to say, that they believed improved transportation between Berkeley and San Francisco and Alameda and San Francisco is a menace to our progress, and I do not coincide with them in that idea. I believe we cannot have transportation facilities too good, because we know that today there are thousands of people in San Francisco who would be glad to come over here if they could do so, as they would have more room and sunshine.

BETTER SERVICE.

"We should insist that we get better service between here and outlying districts than between here and San Francisco. People of Alameda have written letters asking me to do something to relieve the condition between here and Alameda. I believe the Board of Trade will attempt to make the proposition of improving the service to the ones who can help this condition, and I believe that they would do it. Whatever they are doing is certainly not against us. It is only a short time until facilities will be better and we will reap the benefit.

"Good transportation facilities to Point Richmond are now open to Oakland merchants and Oakland professional men and bankers. These people may want to bring money here. They are going ahead over there.

SECRETARY'S REPORT.

Secretary Stearns presented the following report:

"OAKLAND, Cal., April 18, 1905.

"To the Officers and Members of the Oakland Board of Trade, Gentlemen:-

"Your secretary's annual report must of necessity be resume of the work accomplished by this body during the year ending this evening. To the ordinary citizen such a report may seem dry and uninteresting, but to the members of this body whether merchant, professional man or capitalist, it will show him what has been accomplished with his dollars a month. It is the duty of the secretary to account to those members who do not attend the quarterly or annual meetings with the work being accomplished by this body in inducing immigration and locating manufacturers and business houses in Oakland and vicinity.

"Since our last annual meeting over three hundred thousand pieces of illustrated literature, descriptive of Oakland and Alameda county as well as have been distributed from this office. One thousand seven hundred and seventy-four non-residents have participated in the semi-weekly 'All Day for a Dollar' excursions run under the auspices of this Board. Of this number, it can be shown that very many thousands of dollars have been expended in the purchasing of homes, business property and real estate. Recently many of these excursionists have purchased property for speculative purposes thus showing confidence in Oakland as a growing city.

"MANY REPLIES.

"During the past year over four thousand replies have been written to inquiries from the East and Europe. The letters of inquiry contained anywhere from one or two to a dozen or more questions concerning Oakland and vicinity, all of which have been answered besides sending to each person illustrated literature.

"There have been twenty regular meetings of the Board of Directors; ten special meetings of directors; eight meetings of the committee on railroads; five meetings of the executive committee; two meetings of the annual banquet committee; one meeting of the Webster street improvement committee; three meetings of the committee on public improvement and ten meetings of the committee on harbor and water front.

GOOD WORK.

"This Board assisted in entertaining delegates to the National Convention of Retail Grocers on May 4th, and the Native Sons on Sept. 9th. During the year the Board has endorsed, in many instances at the request of and in conjunction with other mercantile bodies throughout the State, the improvement of the Sacramento and San Joaquin rivers; the establishment of a free market in San Francisco; the proposed boulevard between Oakland and Hayward; resolutions favoring the issuing of bonds for the improvement of the water front of San Francisco; endorsed, in conjunction with the Manufacturers' Association of the Atlantic Coast, the Congressional bill favoring the removal of a tax on denatured alcohol for industrial purposes; endorsed a bill in the State Legislature providing for the joint investigation of water and forest resources of California and endorsed the State Senate bill providing for the appointment of a Cereal Improvement Commission.

"This Board protested against the passage of Senate and Assembly bills relative to grade crossings, on the ground that said bills were injurious to the community as well as against the

H. C. CAPWELL, THE POPULAR AND PROGRESSIVE PRESIDENT OF THE BOARD OF TRADE.

and other establishments. The result of the visit of your committee to Washington with the aid of the members of the California delegation was an appropriation of \$350,000 for the improvement of Oakland Harbor, \$100,000 of which was obtained by Senator Perkins as a rider to the bill.

TULE EXPERIMENT.

"The tule experiment station, started over one year ago in Elmhurst, has proved a decided success. The work upon this experiment station has been carried on under the auspices of the University of California, with means provided by this body. Nearly two-thirds of the tule roots planted over one year ago were productive of good results and the present year additional roots were planted and the prospects at present are that next spring this Board will be able to distribute to parties having marsh lands needed for propagation. The Board of Supervisors have assisted in this work to the extent of \$150, which amount will be payable in July. The success of this undertaking means the establishment in this county of large factories and the employment of hundreds of people in the manufacture of matting.

THE SANTA FE.

"This Board inaugurated the celebration of Santa Fe Day and with the co-operation of other local organizations made it a success. Of the amount subscribed for the floral parade for prizes and to make Santa Fe Day a success, a balance of \$212.89 remained and was turned over to the Fourth of July Committee.

"The Board passed resolutions in conjunction with the National Business League favoring the lengthening of the Presidential term to six years and making the President ineligible to re-election.

LABOR DAY.

"This Board joined with the local labor organizations in the celebration of Labor Day. During the triennial conclave of the Knights Templar in San Francisco and on other occasions when there have been large conventions in that city during the past year, the 'All Day for a Dollar' excursions have been run daily, thus bringing large numbers of visitors to this city, Berkeley, Hayward and intervening towns.

"This Board has joined with the commercial bodies of San Francisco during the past year in inviting the National Association of Manufacturers to hold a convention in 1906 in San Francisco.

"On November 26th the Harbor and Water Front Committee entertained Congressman James McLean of Wisconsin with a trip up Oakland harbor, and on February 14th the same committee entertained Congressman Frank P. Flint of Los Angeles, Senator Nixon of Nevada and Congressman McKinlay of San Francisco in a similar manner.

"The Board of Directors, by vote, have instructed your Secretary to arrange for an excursion to Portland some time during the coming summer. Plans are now being perfected.

GRAND ARMY.

"This Board, by resolution, has voted to co-operate with the local Grand Army of the Republic in an effort to secure the district convention of the G. A. R. in Oakland in 1906; also voted to invite the delegates of the American Library Association on the occasion of their annual convention in Portland in July to visit Oakland and vicinity one day; to co-operate with the local banks in the entertainment of the California Bankers on the occasion of their annual convention to be held in this city; to co-operate with the local pressmen in securing the dedication of the International Pressmen's Convention in June in San Francisco. A special committee of this Board also visited Washington in December and reported before the Congressional Committee on Rivers and Harbors for the purpose of securing an appropriation for the improvement of Oakland Harbor. Senator Perkins and Congressman Knowland and also Congressman McLachlan worked hard in the interests of securing the desired appropriation. Senator Perkins and Congressman Knowland worked day and night upon the project and are entitled to the thanks of every citizen of Oakland for their arduous labors. In behalf of the improvement of Oakland Harbor, your committee took with them panoramic views of the harbor in which they filled with ink the names of owners of waterfront property, manufacturers

"There are very many matters of minor importance which your Secretary has not embodied in his annual report.

"Your Secretary would ask members of this Board to visit these rooms frequently and see for themselves the great amount of good work being ac-

complished. Respectfully submitted,
EDWIN STEARNS, Secretary.
THE DIRECTORS.

Following the report of the secretary, Charles E. Snodgrass of the committee on nominations presented the following for Directors:

C. D. BATES JR.
JOHN T. BELL.
STUART W. BOOTH.
W. H. BUCHOLZ.
H. C. CAPWELL.
M. P. M. GREELEY.
HUGO HOGAN.
R. C. MORGENS.
FRANK A. LEACH JR.
EDWIN MEES.

BALLOT CAST.

Upon motion of Mr. Tyrrell, there being no opposition, the secretary was instructed to cast one ballot as the sense of the meeting.

Following the election of directors, the Board of Trade sent a special delegation to Washington to appeal to the Congressional committee on rivers and harbors for the purpose of presenting arguments and facts in support of the request for the necessary appropriation.

"Whereas, the energetic and persistent efforts of Senator Knowland, Congressman McLachlan were successful in securing an appropriation of \$350,000; and

"Whereas, the granting of this appropriation will redound greatly to the development of commerce and the establishment of factories on the Oakland waterfront; be it

"Resolved, That the Board of Trade, in their opinion, be directed to cast one ballot as the sense of the meeting.

THREE MORE BELL THEATRES

NEW AMUSEMENT PLACES FOR SAN FRANCISCO, STOCKTON AND SACRAMENTO.

The success which the Bell Theater in this city has achieved has led to the formation of the Western States Amusement Company, which is composed almost exclusively of Oakland men. This organization has just entered upon the erection of theaters in a chain of cities, including Stockton, Sacramento and San Francisco, involving an expenditure of \$700,000.

BIG UNDERTAKING.

This is the biggest enterprise of the kind which has ever been undertaken on the coast. It means that the cities in question will be provided with modern places of amusement which will afford facilities to the performers to give the best that is in them, and every accommodation to the auditor to enjoy the profits of their work.

Each of these three new theaters will be known, like the theater owned by the company in this city, as the Bell Theater. The house in San Francisco will be the largest of the three, and with the ground upon which it is to be erected will represent an investment of \$500,000.

The Stockton Bell will represent an outlay of \$35,000. It will be located adjoining the Reliance building in that city. The Sacramento Bell will cost \$100,000.

It will be located on a street where the two last mentioned theaters will be built upon the same lines, the difference in the amount of money involved representing the difference in the value of the land upon which the respective structures are to be erected.

SAN FRANCISCO BELL.

The San Francisco Bell will be erected on the south side of Market street, adjoining Odd Fellows' building, between Sixth and Seventh streets. It will have a frontage of 75 and a depth of 165 feet. The contract price is \$141,000, exclusive of fixtures. The cost of the building will be \$100,000. The steel structure resting upon a solid concrete foundation. The material outside the steel frame will be hard pressed buff brick, with terra cotta to match. It will be five stories in height.

The stage will be wide and deep, affording accommodation for the largest choruses and ensembles. It will have a solid steel curtain as a safeguard against fire.

There will be a parquet dress circle and a main circle capable of seating 3,000 people. A 1,500 seat gallery can be accommodated in the first floor. Throughout the house the seats will be of the opera chair pattern, upholstered in embossed leather.

FIREPROOF THROUGHOUT.

There will not be a stick of wood in the structure, a fact which will render it perfectly fireproof. Despite this fact, for the safety of patrons in the event of panic there will be forty-two exits on the ground floor. Every requirement of the city ordinance respecting means of safety in case of fire has been satisfied in the plans, something which has not been done in any other theater in San Francisco.

BAKERS' UNION TO HOLD MEETING

NEW YORK, April 19.—A call has been issued by the executive board of the Journeymen Bakers' and Confectioners' International Union for a meeting in Chicago next Saturday to act on the decision of the United States Supreme Court declaring the bakers' ten-hour law unconstitutional. The board will take up the question of asking the Supreme Court for a rehearing in the case.

In this building will be the offices of Ed Homan and Archie Levy, who will book

DEBATE LONG OVER INTER-COUNTY TUNNEL

Approaches in Bad Shape—Consolidation With San Francisco Advocated—Tidal Canal Ownership

The Merchants' Exchange last night turned down the proposition of giving the balance of the tunnel fund to the Contra Costa Supervisors to be spent in repairing the roadway leading up to the tunnel on the Contra Costa side. The argument was long and at times almost acrimonious. The views brought up by Director Solist, who, in a report for the committee, said:

"For the committee that was sent to Martinez to look into this matter I would say that we are in favor of appropriating \$200 toward helping Supervisor Harrison of Contra Costa to repair the road. This district is in an impoverished condition owing to the fact that it was run heavily into debt at the time the tunnel was built. One citizen of that district is putting up \$20 to help the work."

WANTS GUARANTEE.

Director Arper—I am not in favor of giving the money unless we have some guarantee that they will put up as much as we do. I do not believe that we are called upon to fix the roads over there.

Director Walker—They are not asking us to fix the road. The roads are in a bad condition and we went to Martinez and they received us with great courtesy. We asked them what they were going to do about fixing the road and they told us that the district in which the road lay had no money, but that they were trying to do something on it.

SHOW GOOD FAITH.

"In the talk the question of surplus came up and we told them that we thought some of this could be used for this purpose if they would put some with it. They combined another district with the one near the tunnel so that the funds of both can be used on this road, but there will be no money available until July and the work should be done now."

Director Wellby—I am not in favor of giving them cents. My brother and I put part of his load off at a bad place in the road and after he gets his bag across loads his stuff on again. He would not give you a five cent piece to fix this money in fixing a place of an acre or so near the tunnel where people may picnic and let the road on the other side go. Supervisor Harrison told us at our last meeting that the rest of the Board did not care a hang about that road and that they looked upon the whole thing as a scheme on the part of Oakland to steal Contra Costa trade.

WOULD GIVE ALL.

Director Moller—Gentlemen, we only have about \$500 of this money left. I believe we should give it all to Supervisor Harrison. He has shown his good faith in going around with a map. The money was disbursed for this purpose and I believe it should go for it. I don't know but what under the agreement we made that the Contra Costa Supervisors could not demand the money."

Director Wixson—Those roads on the other side of the hills are in a worse condition now than they were twenty years ago. They promised to keep the Snake road in repair, but it has gone all to pieces. Give a man money and you take all the manhood out of him. I say let the road go until they show that they are right in this matter."

Director Williams—I make a motion that we lay the matter over for two weeks and see if we can't get some sort of a guarantee out of them.

Director Hoffman—I don't see how any of this money can be spent on the Contra Costa side. If I am right we fix up to the middle of the tunnel and they will set it from their side.

MONEY FOR APPROACHES.

Director Walker produced the original subscription book and showed that the heading of the subscription read to the effect that it should be paid to the Contra Costa Supervisors on the order of the Merchants' Exchange for the building of the tunnel and the approaches.

Director Wellby again suggested that the money was not burning his pockets and that if it was to be spent he said use it on this side. He then made a motion to have a committee of three appointed to go up to the tunnel and see the advisability of spending the money in the best way. This motion was carried.

After President Schleiter appointed on this committee Directors Weilby, Sanborn and Sinclair.

NOMINATE DIRECTORS.

The committee appointed to make the nominations for the annual election of directors made a report of the following names: Geo. A. Reed, E. P. Bacon, E. G. Brown, J. L. Chapman, H. C. Coward, F. G. Elben, F. Al. Farwell, Herman Gard, Theo. Gier, Geo. Hoffman, A. Jonas, E. F. Muller, H. M. Sanborn, A. H. Schlueter, Fred. Sinclair, J. F. W. Sohst, W. H. Wellby, H. G. Williams, J. S. Wixson, E. A. Young, Wilber Walker, D. Crowley.

FOR CONSOLIDATION.

The following paper was read by Director Sohst:

"Mr. President and Gentlemen: As chairman of the legislative committee I beg leave to make the following report: 'The bill in which we were most interested was the division of the county. We expended some money to have a bill drawn, which we considered a fair one, but our representatives, with few exceptions, agreed that there is hardly anything of the original bill left.'

"As you are well aware the bill was gotten up as a forerunner of consolidation, but I have come to the conclusion there is no redemption for the taxpayers—\$289 on a hundred."

"It is to be wondered at when real estate men complain? That if parties come to look at property and ask our tax rate they break away and they never see them again?"

A GREATER CITY.

"Having failed with county division and annex of the cities on our side of the bay, we must not be disengaged, but start on a broader plan and annex with a greater city."

"This measure was brought up in the Exchange two or three years ago and later by Dr. Wooley, but did not find many advocates by politicians, and the subject was not educated enough on the subject, but the steady rise in taxes has set them thinking and they look for relief."

"They knew that the tax rate in San Francisco is only \$1.65 on the \$100, and they knew also that ours is \$2.88, and ask the question, Why do we have to pay so

much higher rate?"

TAXES TOO GREAT.

"What do we get for this extra \$1.24? I say nothing. When our citizens go out with the property owner has to go down in his pocket and remanufacture or relubricize them, and there does not seem to be money enough in the treasury to keep them in repair."

"It seems to be a conundrum where all the money goes to, but all the people know it goes."

"How is it in San Francisco streets once put in order are accepted by the citizens, but when we will annex it to annex with San Francisco? Our tax rate will then be \$1.65 instead of \$2.88 and every property owner on this side of the bay will vote for annexation."

WOULD POLISH KNOB.

"Our natural advantages will then be taken care of. San Franciscans would make a Golden Gate Park of Oakland. They would take pride in polishing the knobs of their front door, which has been so long neglected by the dwellers of this burg."

"Our harbor will then be improved in half the time that it takes by us going alone."

"Ten businesses will come to our side of the bay where there is one now."

"How can we expect for capital to seek investment here when our taxes are so much higher than in San Francisco?"

"People will not pay for our kindergarten government, of which we are blessed with five."

ONE GREAT CITY.

"Our civic pride won't suffer any. Instead of being called Berkeley, Emeryville, Alameda, Fruitvale and Oakland we will be living in East San Francisco, and the travelling public can then, without a hitch, sign their names in the hotel register in the East. In large letters, 'So and So and So family, from San Francisco'."

"As an inducement to San Francisco to accept us we will bring them a population of 150,000, swelling their number to over half a million mark, putting them in rank with Greater New York and Chicago. The State University with its Greek Theater, Mills Seminary, Deaf, Dumb and Blind Institute; the Athenaeum, Lake Merritt, the City in the Union, Emeryville with the largest race track this side of the Rockies; the terminus of the Southern Pacific, Santa Fe and Western; Oakland harbor, the best land-locked harbor in the world, all will be in her limits. So will be the home of Governor George Pardee, United States Senator Perkins, Congressman Knowland, Cabinet Minister Victor Metcalf, Harbor Commissioner E. Stratton, Superintendent A. French, Shipping Commissioner John T. Irish and many prominent men of national fame will be added to her citizens."

OTHERS HAVE GAINED.

"Both New York and Brooklyn have gained by consolidation. New York has grown and also Brooklyn, and are growing more than ever before. So it will be with the annexation to San Francisco of its eastern suburbs. The jealousy which formerly existed between New York and Brooklyn has vanished. Expansion in every direction has proved the outcome of the union."

"Greater New York passes all. Boston and Philadelphia are examples of once where the name is heard of a dozen times. So it will be with Greater San Francisco."

Applause followed the reading of the paper, which was ordered filed.

FOR LOW RATES.

A letter was received from E. P. Bacon, chairman of the executive committee of the Interstate Commerce Law Convention at St. Louis, calling attention to the necessity of renewed effort on the part of the commercial organizations of the country to secure effective legislation in the protection of the public against what are termed unjust discrimination and unreasonable exactions on the part of the carriers of the nation.

A letter was read from the Senate committee which stated that the Senate committee will meet at Washington in October, and it is urged that every organization should send all the help it can to offset the work of the opposition.

QUESTIONS OWNERSHIP.

The following letter was read and is self-explanatory:

"Wilbur Walker, Secretary Merchants' Exchange—Dear Sir: I have been thinking over the matter regarding the rights of the citizens of this section of the use of the waters in the tidal canal. As you are aware, at the present time the Government shows a disposition, or rather takes a stand that that canal is the property of the Government, and that the people have no right to make use of that navigable piece of water in the way of commerce. While the Government has built and constructed three bridges across the canal, they say to us, 'That no person can build piers or wharves within the banks of said canal without the consent or the authority of the Government.' When said canal was designed its purpose was to use the tidal area of San Leandro, but as the tide recedes and of the canal similarly as the means to convey and utilize the tidal flow of it in obtaining and maintaining depths in Oakland harbor, which is entirely to the western of the tidal canal."

WOULD COLLECT FACTS.

"However, the Government in condemning the property led us to believe that it would be of great commercial value to us in having additional waterfront, also in the construction of the bridges. Then have so built them that they can be opened and vessels can pass to and fro."

"If the Government could be influenced as to enable the bridges to be opened and wharves constructed on the banks of the canal would greatly add to the value of our water front, and indirectly benefit Oakland."

"I would suggest that your Exchange appoint a committee to investigate the matter, with the view of acquiring the facts in the case, and if on investigation they think it best to take the matter up with the Government to do so."

"My interest in the matter, of course, is direct, being an owner of considerable land adjacent and lying on the canal. I would be very glad to give the committee any information that I can possess as to the contention that the Government makes."

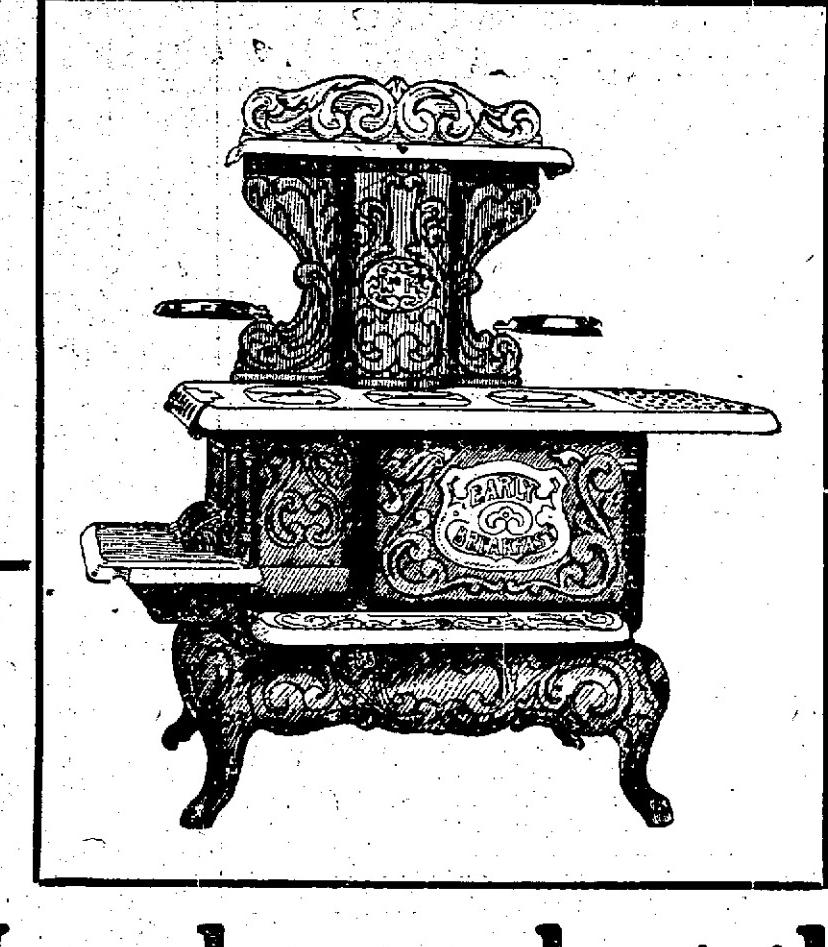

"Trusting that I have not wearied you with this long letter, I remain yours truly, IRVING C. LEWIS."

Peculiar Disappearance.

J. D. Runyon of Butlerville, O., laid the peculiar disappearance of his painful symptoms of indigestion and biliousness to Dr. King's New Life Pills. He says: "They are a perfect remedy for dizziness, sour stomach, headache, constipation, etc. Guaranteed at Dr. King's drug stores. See Dr. King, Broadway and Twelfth and Washington; price 25¢."

Wanted To Purchase.

Inval's wheel chair, to give a poor person an airing. Phone John 972 or see H. Schellhaas.

UNTIL SATURDAY NIGHT
A CHAIR FREE
With Every STOVE

Me, oh my, but this is a great stove sale

Whether it is the free chair with every stove, the easy terms or simple curiosity that BROUGHT the people here we don't know.

But we DO know is that they came—sometimes they almost swamped us.

But when they SAW the "Early Breakfast Range" they forgot the free chair and the easy terms and everything but the good points of this justly famous range.

And it's a wonderful range. It has advantages galore. Points possessed by no other range. Points which make it a fuel saver which increases its heating capacity.

It is an economical range.

It is not expensive. It is guaranteed for two years. It will wear, with care, for 10 or 15 years.

Ask to see the "indestructible damper," the "lift out grate," the "full sheet flue" system.

They burn either wood or coal. Are especially adapted to California conditions.

It is the stove for you. It is absolutely the most economical and thoroughly satisfactory stove ever shown in Oakland.

OAKLAND TRIBUNE

W. E. DARGIE, President
Business Office and Publishing House, 413-417 Eighth Street, Oakland.

The Defilement of the Bay.

The fisheries of San Francisco bay are being destroyed by oil, which is allowed to escape into the water from the many steam craft using crude oil for fuel and the manufacturers along the shore around the bay. Why is it that the Fish Commissioners make no protest? Why is no voice raised to protest against the wholesale destruction of valuable fish life in these waters? The wastage of oil into the bay is easily prevented, but no one seems to take any notice of it. Not only does it kill the fish, but it creates a foul and evil-smelling scum on the surface of the water that is exceedingly unpleasant. This scum drifts into the bathing coves and fastens itself on the sides of boats. Great patches of it are seen floating in Oakland harbor, whence it comes with the tide into Lake Merritt. The quantity of waste oil on the surface of San Francisco bay and its tidal tributaries increases year by year and unless some measures are adopted to stop the flow into the waters of the bay they will soon be barren of food fish and hopelessly polluted. This is a matter of no small concern. The preservation of the bay fisheries is of deep interest to all residents of the bay district, for their destruction means an increased cost in living, while the pollution of the waters of the bay renders the shores much less attractive as a place of residence. It is strange, therefore, that the press and the authorities remain silent while the bay is being spoiled by being made a depository for oil refuse. If the law affords no remedy for the continued defilement of the bay the next Legislature should enact the legislation required to arm the authorities with the power to compel a cessation of the abuse.

It does not seem to have occurred to anybody to connect the strange epidemic at Tonopah with the quality of the whisky sold there.

The union teamsters in Chicago seem to think men not of their way of thinking are only amenable to the same sort of persuasion they apply to a mule—a club.

It is to be hoped that the new chesnut Luther Burbank is perfecting will be an improvement over the variety usually retailed in clubrooms.

One Los Angeles millionaire has been sent to State prison for trying to murder his wife and now another Los Angeles millionaire has been held to answer for manslaughter for killing a young woman with an automobile. At this rate, Los Angeles millionaires will have to behave themselves just like poor folks.

The First of American Comedians.

The sympathy of all classes in the United States will go out unreservedly to Joseph Jefferson in what appears to be his final illness. Mr. Jefferson is affectionately remembered wherever he has graced the stage with his presence. In the higher walks of comedy he stood first, up to the day of his retirement, among English-speaking actors, and is not only the dean of the profession on this side of the Atlantic, if we except the venerable Stoddart, but is considered one of the most finished stage artists America has produced. What Edwin Booth was to tragedy Joe Jefferson is to comedy.

But more than that Jefferson is a type of a fine manhood. His innate gentleness and fine courtesy were manifest under every stage metamorphosis. He was never vulgar or clownish in any part he ever played. That is why his Rip Van Winkle and Bob Acres were so imitable. Though a great braggart and coward Bob Acres had the manners and instincts of a gentleman; he was not the buffoon that actors with less insight than Joe Jefferson depicted him. Jefferson made his audiences feel very partial to the boasting, hare-hearted booby masquerading as a lady killer and duelist, and he made them fairly love old Rip Van Winkle. Therein he displayed the humanity and gentility of historic art, by bringing out the best that was in the characters he portrayed. He ennobled the drama and gave his profession a dignity which is too often sadly lacking.

The stage (using that term to designate both the drama and the members of the dramatic profession) is greatly indebted to Mr. Jefferson, for, while adding lustre to the dramatic art, his character increased popular respect for the personnel of its exponents. He gave the impression both on and off the stage of a true gentleman—polished, yet simple, courtly yet cordial in manner; just what should be expected in a cultivated, genial man of versatile talents with a wide acquaintance with the literature and men of many lands. It is not strange, therefore, that Mr. Jefferson should count many of the most distinguished statesmen, financiers, clergymen and authors among his intimate friends. The warm friendship which has existed for so many years between himself and ex-President Cleveland is a matter of common knowledge, and the fact that the actor took his close intimacy with the President of the Republic as a simple matter of course is proof of the fine grain of the man. It is no small measure of praise to say that Joe Jefferson sweetened life during his generation and elevated a profession that is too often soiled by men and women who regard it as license to overstep all moral restraints.

The press agent of the President's western hunting trip ought to make his fortune with a circus or an opera singer. He is giving Teddy a daily send-off that is a morning paralyzer to nervous old ladies and the Katzenjammer kids. One day the President captures a live wolf single-handed by seizing the animal's jaws so he cannot bite. Next he shows the veteran cowboys a few wrinkles in bronchobusting. Then he kills a black bear weighing 600 pounds (ye gods!) and eats him for breakfast. It appears, if the veracious chronicler of the President's feats is to be believed, that Teddy beats all the cowboys, hunters, trappers and guides in their own particular specialties, and sighs each morning for a higher mountain to climb, a harder bucking horse to ride, and a bigger wolf to capture with his bare hands. But perhaps the world is giving to lying in our day as much as it was in Falstaff's time.

Rojestvensky will probably make a grave mistake if he banks too seriously on what the Japanese minister says Togo is likely to do. The Japanese have not been noted for giving their foes notice of their plan of operations, and in this instance they have the greatest possible incentive to conceal their movements and intentions. It is rather suspicious, therefore, to find the Japanese minister at Washington talking guilelessly for newspaper publication about the course he thinks Japan's great admiral will pursue in dealing with the hostile fleet now approaching the shores of his country. The Japanese minister says Togo will probably avoid a general engagement and seek to pick off the Russian ships one by one. Maybe so. Togo will probably try to destroy Rojestvensky's fleet in short order, even if he lose half his own armada in the undertaking, because once the Baltic fleet is out of the way Japan's supremacy on the sea cannot be again disputed during the present war.

Inquisitive chemists have discovered that unprincipled bakers have been embalming the famous baked beans of Boston with salicylic acid. Next somebody will declare the Sacred Codfish of Massachusetts, so reverently preserved in the State House at Boston, is only an imitation affair after all.

After the storm look for a rainbow or a policeman.

THE DRAMA AND THE TRUST

(After Mr. Kipling.)
E. D. BIGGERS IN LIFE.

"What's that that struts upon the stage?" called Shakespeare from the dead.

"An actor of the Syndicate," the honest critic said.

"What makes you look so white, so white?" called Shakespeare from the dead.

"I'm dreading what I've got to watch," the honest critic said.

For they're murdering the Drama in a dazzling glare of light, The Trust is strangling him for gold—they're killing him tonight With a tawdry, painted chorus, and a play that's far from bright, They are murdering the Drama in the evening.

"Why do the people fight so hard?" called Shakespeare from the dead.

"To get a seat, to get a seat," the honest critic said.

"Why, don't they know the play is rot?" called Shakespeare from the dead.

"The Trust-paid critics lied to them," the honest critic said.

They are murdering the Drama, they are dragging of him down, Their heroine is dressed in tights, their hero is a clown; The masters of the ring rejoice, for they have fleeced the town— O, they're murdering the Drama in the evening.

"Neath me the Drama came to life," called Shakespeare from the dead.

"He's lying cold and still tonight," called Shakespeare from the dead.

"In his name Schlock won renown," called Shakespeare from the dead.

"He's in the power of Shylock now," the honest critic said.

They're murdering the Drama, they have got him on the ground, The tongue-tied critics of the press stand helplessly around, The Public stares in deep dismay, but utters not a sound— O, they're murdering the Drama in the evening.

"What is that song they're singing now?" called Shakespeare from the dead.

"The ghost of one they sung last year," the honest critic said.

"Why do they screech and jump about?" called Shakespeare from the dead.

"It is the Trust's ideal of Art," the honest critic said.

They have done for poor old Drama, 'tis the ending of the play, The painted chorus makes its bow, the patrons move away; Ho, the managers are laughing, for they've made a haul today, Out of murdering the Drama in the evening.

SOME PASSING JESTS.

Count that day lost whose low descending sun Views every blooming Russian on the run.

—Detroit Tribune.

"If you want to lose flesh, sleep on face," says a New York modiste. We see some faces every day that would make pretty hard beds for the owners who are pushing them along through life.—Denver Post.

"I think it is a shame," remarked the new boarder. "This paper says the Russian soldiers only get 12 cents a month."

"Well, don't worry," replied the comedian boarder. "The Japs will make them look like 30 cents."—Chicago News.

A New Yorker was visiting in Boston. Seeing a parrot in a cage, he asked: "Does Polly want a cracker?" "I require no sustenance

from you whatsoever," replied the Back Bay bird, with hauteur.—Yonkers Statesman.

There was a young girl named McNeil Took a ride in a big Ferris wheel, At the twenty-first round, She looked down at the ground, And lost a fine eighty-cent mail.

—Grand Rapids Herald.

Things even up, all right; Papa snores at night, Till the snores snore, Baby, who in fright Yells out to be taken— Wakes pa, mad enough to fight, Yes, things even up, all right!

Michael Mooney—Wid a motty, yer Anner.

Police Judge—A what?

Michael Mooney—A motty—wan o' these frames wid "God Bless Our Home" in it.

WELL-KNOWN PEOPLE.

In the year 1874 the marquis of Dufferin and Ava, then the Governor-General of Canada, visited Chicago. Concerning that visit he has written: "The day following my arrival I spent in bed with a very bad nervous headache, a fact which was announced to the public in the morning by a sensational paragraph in all the papers, to the following effect: 'His royal nibs down with a cold.' Doctor set for. In fact, all the time I was at Chicago the papers teemed with similar elegancies, the concluding leading article in the leading journal being headed, 'Good-bye, Old Dufferin.' Another paper devoted two of its columns to a description of an interview between one of its reporters and myself, in which I was described as sitting in a silk dressing gown, sucking sugar and water through a straw, while I communicated to my interviewer what I always addressed as 'ol' fellow'—igious state secrets and a minute detail of my private affairs; though it is needless to say the author of the narrative had never been within a hundred yards of me."

Ambidexterity is one of the fads of Gen. Baden-Powell, the famous defender of Mafeking. He can write with both hands equally well. "I do not consider a man a thoroughly trained soldier," he says, "unless he can mount equally well on either side of his horse, use the sabre, pistol and lance equally well with both hands and shoot off the left shoulder as rapidly and accurately as from the right."

Prof. Simon Newcomb, the famous American astronomer, has just celebrated his seventieth birthday. He has received more degrees and similar honors abroad than any other American man of science and is the first American member of the French Institute since Benjamin Franklin.

THAT GREAT DIAMOND.

That Premier diamond of the Cullinan diamond, as it is also called, would be worth \$19,302,400, if the value of diamonds were figured today as it was from 1750 to 1870. The estimates put upon that stone, however, range from \$2,500,000 to \$5,000,000. It was on account of the large number of great stones that were found every year in South Africa that the old method of roughing was abandoned. According to that method the stone was rated according to the square of the weight multiplied by the value of a single carat. Thus, if one carat sold for \$100, then two carats would sell for \$400 and three carats for \$900, and so on. The Premier diamond weighs 3,032 carats.

One of the interesting facts in connection with this great diamond is that it is believed to be but a fragment of a still greater diamond, the other pieces of which are lost. That the stone was formed much larger is shown by the four flat cleavage planes, which have the regular octahedral position. Only a small portion of the natural surface of the stone remains and the fragments broken off seem to have been very large. Like other diamonds in South Africa the Premier was found in what is regarded as the chimney of an extinct volcano. It is believed that when the diamond was thrown up from its birthplace far beneath the surface the form of the eruption was so great as to cleave the fragments from the stone. These fragments may have been blown out at the time of the explosion or may be still in the volcano chimney.

Pity the darlings couldn't hibernates through the teeth-cutting period.

Rare among women are baldheads and stammerers. One indicates a lack of the head, the other an uncontrolled tongue.

Penny wise and pound foolish is the woman that does without a newspaper and thus increases the amount her husband may spend upon unreadable things.

Men hate brooms and dust, but who brings in all the mud and throws all the papers on the floor?

Much talk there is about the time spent upon pompadours, but wear your hair parted and unfluffed and hear the talkers compare your coiffure to "an old woman's."

It is a nerve-racking question with us. A white vest or two seems to settle the worries of men.

Lovers Kiss
Delayed Ship

**BIG STEAMER
IS DELAYED
BECAUSE OF**

WOMAN'S PAGE

This Cupid is
Color-Blind

LOVER'S KISS

NEW YORK, April 19.—The psychological mystery of a kiss, one of the long-drawn-out kind, delayed the sailing of the longest ship in the world yesterday and instructed a thousand persons, all pupils in the universal school of love.

Coming as a logical sequel of the parting salutation was an act of hazard and daring to board the ship, a feat cheered by the spectators, who loved the lover and applauded his daring and recklessness.

Julius M. McIntyre, of Buffalo, going to London on a business trip, brought his sweetheart to tide water to see him sail on the Oceanic. They are to be married on May 1.

McIntyre showed his fiancee the ship and took her ashore before sailing time, but hated to leave her. He took his leave, but the smiles and the tears of the pretty girl and the blue eyes under the big hat lured him down the gangplank for a last farewell.

In that last kiss surroundings and purposes were forgotten by McIntyre. The pretty girl clung to him and he mechanically drew her along with him, but like all persons lost in a forest or traveling blindfolded, he dragged her along the segment of a circle.

Love is blind.

There was certainly an angle of divergence of as much as fifteen degrees between the curved course the lovers took during the protracted kiss and the straight track for the gangplank McIntyre should have followed.

When the girl finally gave the signal to "let go," McIntyre made a grand back-rush for the steamer, only to find the big ship picking up motion and the outboard end of the gangplank swaying in air.

Undaunted, devoted, undying, he rushed up the swinging plank to throw himself upon the ship, now some six feet distant.

There, on the brink, the merely physical part of the lover's courage halted, and he hesitated. The sailors and the quartermasters on the ship urged him to jump, extending far their arms to catch him. Still he hesitated, waving his hands appealingly to the shore crew to lower again the plank.

The situation was getting painfully critical, the suspense agonizing. Simultaneously Captain and Shore Superintendent issued the necessary orders to relieve the tension and help the lover.

The mighty engines within the body of the ship began to turn the other way, as the donkey engineer ashore began paying out and dropping the outboard end of the plank. The distance had narrowed to four feet. McIntyre jumped into the waiting arms of the quartermasters and was safe aboard.

Then everybody sent up a shout and waved his hat, while women clapped their hands and the pretty girl from Buffalo blushed.

McIntyre threw a kiss ashore and then made for the smoke-room—and ordered just one for his nerves.

ARMY MEN ANGRY OVER THIS MARRIAGE IS CUPID COLOR-BLIND?

NEW YORK, April 19.—It is charged by officers and privates stationed at Willets Point that Cupid is color-blind, and because Arthur F. Dilworth was married to Amy Jenkins, a pretty mulatto girl, the post is up in arms.

Dilworth is twenty-seven years old, and used to be one of the most popular men at the post. He has served two years as a private in the One Hundred and First Coast Artillery. So bitter is the feeling against him now that officers at the post are of the opinion that he must have his discharge in order that "demoralization of the service" may be prevented.

Dilworth married Amy Jenkins on April 1 at the home of Mrs. Daisy Miner, a colored woman, with whom the girl was living, at No. 142 Lincoln street, Flushing. The Rev. P. J. Lawton, pastor of the Flushing African M. E. Church, officiated. When the news of the affair reached the fort at Willets Point the soldiers were greatly excited.

They would not recognize Dilworth when he returned to his duties. The officers did not take cognizance of the situation until the soldiers refused to attend mass if Dilworth were permitted to be present. The only solution of the problem was to serve rations to Dilworth and permit him to eat them where he wished, so long as it was not in the mess hall.

Lieut. M. C. Ezell is in command at the post. He refused to discuss the situation last night. It is said openly at the fort that unless Dilworth were permitted to be present. The only solution of the problem was to serve rations to Dilworth and permit him to eat them where he wished, so long as it was not in the mess hall.

Mrs. Dilworth said last night that her husband would serve out his term of enlistment and then go into business. She remains with Mrs. Miner, while her husband makes his home at the fort.

DEVERISH DANCER BREAKS A RECORD

2,240 REVOLUTIONS IN 32 MINUTES

NEW YORK, April 19.—Did you ever dancer closed her eyes after the first when a child whirled about on your feet few turns, but kept a smile upon her to see how many revolutions you could lips to indicate to the onlookers that make without getting dizzy? And didn't she was at no time fatigued.

you generally tumble down in a heap? "How long?" cried the swirling figure with a laugh at about the tenth turn? "Are there more than half the time had been consumed."

"Twenty minutes," replied one of the spectators. The girl asked for an orange and, snatching it from her brother's hand without halting, peeled and ate it, tossing the bits of skin into the crowd like sparks flying from a great pinwheel.

To rest her hands the girl threw her castanets away and shifted her arms from waist to head.

Twice she drew a little watch from her corsage and opened her eyes long enough to satisfy herself as to the time consumed.

At times, when the spectators were sure they could see her faltering, she dropped her head to one side with a little laugh and increased her speed with arms extended.

Five minutes before the close the dancer called for a banana and consumed it with apparent gusto.

"All right," called the timers at thirty-two minutes. Marie stopped abruptly, walked straight to a man sitting down, took a pin from his coat lapel and stuck it on the chest of his neighbor. "You see I am perfectly collected," and she laughed merrily as she disappeared to don her street clothing.

LITTLE HINTS.

There's no end to lace insertions. Narrow frills of val. lace are ubiquitous.

Batiste with Japanese embroidery is actually sumptuous.

Splendid lace yoke emplacements extend well down the arm.

Lingerie sleeves are set inside the elbow length coat sleeves.

Onion-peel braid is silky and boasts a most descriptive name.

During the first minute of the whirl she made seventy revolutions, and maintained this speed for almost half the time she performed. In order to avoid the possibility of dizziness the

girl began the dance with her right foot flat as the pivot and the left toe acting as the propelling force. Never once during the constant, monotonous turning did she shift this position, and in that lies perhaps one of the most remarkable features of the exhibition.

BUILDING TRADES COUNCIL

Eastern Union Leader

Delivers An Address.

ALLIED PRINTING TRADES UNION LABEL COUNCIL OAKLAND CALIF.

All the delegates to the Building Trades Council were present at an enthusiastic meeting held last night at Kohler & Chase Hall. There were a number of visitors who made speeches on union topics.

An address an hour in length was delivered by W. E. Jones of Herndon, Pennsylvania, who is a member of the executive board of the United Mine Workers.

He spoke of the condition of the Federation in the East in a most encouraging way.

In the course of his remarks, Mr. Jones frequently spoke in praise of John Mitchell, president of the Mine Workers.

Other Eastern unions were represented and spoke in favor of membership and influence. The outlook for unionism appears bright all over the United States, so it was reported last night.

Brentwood, Pittsburgh, and Cleveland of the State Building Trades Council were also present. Each spoke briefly of the local conditions that they appear from their reports to be favorable to unionists.

Union matters of the State of California were treated by W. E. Scully of Oakland, organizer for the State Building Trades Council, and F. H. Pratt of Sacramento, organizer for the San Joaquin.

Besides several other union leaders present, there came three members of the Women's Label League to request the interest of the Building Trades mechanics in their organization and to ask that their wives join the league.

BARTENDERS MEET

Local bartenders' International Association had its regular monthly meeting last night. There were three initiations and four applications for membership, eight in all.

The committee which made the arrangements for the ball given last February made its final report and was discharged. The sum of \$15 was gained by the entertainment of the members of the committee.

President Fred Joslyn, Johnham, Howard Smith, Gus Poller, William Wickings, and A. McLean.

Fred Joslyn gave in his resignation as bartender, giving the usual reason that he could not find the time for an interest to the affairs of the union. Thomas Burk was elected to the office for the balance of the term.

INSTRUCT DELEGATE

Partial records were given Charles Herkham, the delegate from the Cooks' and Waiters' Alliance, No. 31, to the convention at Kansas City next month, at the meeting of the load yesterday afternoon. He is to oppose strongly the proposed

WOWAN DISROBES IN VACANT LOT

Wandering about a vacant lot near the Fabiola Hospital, Edith Dominic, the comely wife of August Dominic, a gardener residing at Thirteenth and Harrison streets, was found in a pitiful condition about noon yesterday.

She had evidently walked from her home to this lot and there disrobed herself, for her clothes were found in the shrubbery that grows in the lot.

She was taken to the Fabiola Hospital, bathed and cared for by the nurses there until evening, when she was sent to the Receiving Hospital. She was treated, but refused to utter a word in response to questions put to her. She made some resistance when the attendants attempted to clothe her before taking her to the Receiving Hospital, but quieted down as soon as she was dressed.

August Dominic, her husband, called at the police office about 10 o'clock, and asked aid in finding his wife, whom he could not find at home. He was taken to the hospital and there identified his wife.

He stated that in the morning she had appeared to be in her usual good health, attending to her household duties as was her custom. After he left his home, it is evident that she became deranged and wandered to the spot where she was found.

Dominic says that his wife had been attending spiritualistic meetings, and it is these meetings that he blames for her present condition. She is in splendid physical condition, and the doctors think it is purely a mental disorder that afflicts her.

She will be examined by the insanity commission this morning.

SAYS HE IS GIRL'S HUSBAND

PHILADELPHIA, April 19.—A telephone message was received today by the officials of the Pennsylvania hospital from a man in New York, who says that he is the husband of Jessie Davis, the circus girl who was shot yesterday by Edward Smedes. The man said he would come to this city. He declined to make his name known. Miss Davis' condition is said to be critical, but she has a slight chance for recovery.

EX-BANK OFFICIAL IS SENTENCED

BUFFALO, April 19.—Earl W. Card, former president of the Medina National Bank of Medina, N. Y., convicted of misappropriating the funds of a national bank and making false returns to the Comptroller of the Currency in Washington, was today sentenced to six years imprisonment in Auburn prison.

It's fun to make an ENERGY pudding. Why even a man can make one. Child's play. No mussing or fussing. 10 cents a package.

Pudding
AT ALL GROCERS.

WHAT IS SHIP'S CARGO?

VESSEL AT LONG WHARF MAY HAVE AMMUNITION FOR RUSSIANS.

Down at Long wharf there is a steamer loading for a trip to the Orient whose cargo is the subject of much speculation. The report has gotten around that she is being loaded with arms and ammunition for the Russians now fighting in the Far East, and although her master, Captain Brodie, claims that the big cases that are far down in the hold are boxes of his mosquito netting, consigned to the best of his knowledge to the firm of Yokohama, Japan, the serious and imaginary powder and arms.

The steamer is a tramp by the name of "Adato," built in 1901, with a length of 331 feet over all, and a beam of 38 feet. She is owned in the East India trade for several years and on her last trip carried cotton from Bombay to Kobe. The Occidental and Oriental Steamship Company then sent her to this port in her present condition.

The cargo that arouses so much interest and suspicion consists of 366 cases, varying in weight from one ton to six tons each, numbered and marked with letters, 8500 bales of cotton bearing shipping tag of the Lesser Goldman Cotton Company of Newark, Ark.

Government Inspector advised her captain to open the cases and when he did,

Captain Brodie states that while on board he saw a good deal of hard usage. She is to be fitted up with gold paint and white, and will be trim and snug when she leaves this port.

Government Inspector advised her captain to open the cases and when he did, he replied that no such intimacy had reached him.

A. W. JOHNSON IS ELECTED CLERK

SAN FRANCISCO, April 19.—The nine Judges of the new Appellate Court met in the chamber of the Supreme Court yesterday and discussed plans of getting to immediate work and disposing of the cases assigned to them.

Judges Harrison, Cooper and Hall of the First District Court elected A. W. Johnson to the clerkship. While there was a host of candidates for the place, Johnson was the only one seriously considered. Mr. Johnson has been connected with the Clerk's office of the Supreme Court for years, and was the secretary of the Court Commission at the time of its abolition:

He will be selected today from the many applicants. The salary of the deputy and bailiff are \$150 a month. The Legislature fixed the pay of the court judges at \$350 a month, and the court judges are finding it difficult to find a competent man at that figure. Some 200 cases have been so far assigned to the First District Court. The 16th of May has been fixed for the examination of those desirous of being admitted to the practice of the law.

Judges Gray, Smith and Allen of the Second District Court will meet to organize in Los Angeles on Monday or Tuesday next. James M. Meredith has been appointed clerk for the clerkship. Mr. Meredith is at present a deputy Supreme Court Clerk. W. D. Shearer and W. S. Warren, clerks of Los Angeles Superior Courts, and Olio Lloyd of Santa Barbara, clerk of the Assembly, are also applicants for the position. Judge Allen favors Mr. Shearer, and it is believed that he will receive the appointment.

The Third District Court, Judges Chipman, Buckles, and McLaughlin, will not select a deputy clerk, bailiff and stenographer for some days yet. This court will sit in the Supreme Court chambers at Sacramento.

The Third District Court, Judges Chipman, Buckles, and McLaughlin, will not select a deputy clerk, bailiff and stenographer for some days yet. This court will sit in the Supreme Court chambers at Sacramento.

Oakland O

16 INNINGS

San Francisco O

SCHMIDT AND M'MURRAY, OAKLAND'S BATTERY IN YESTERDAY'S GAME

PITCHER SCHMIDT.

BY PARKE WILSON.

Well! Well! Well!!! The Oakland fans certainly got their money's worth. And what a pitcher's battle it was; I never saw anything like it! The ninth inning opened and still no runs, both teams playing great ball. And it was the same story for the rest of the duel. The stick work of both teams was weak; the men have not as yet gained their batting eye, but this fault will be remedied as the season grows older. I want to see the batting averages increase as hitting makes a game interesting. The team that won yesterday's game would have done so through nothing but luck, and it would require quite a bundle, too. To me the feature of the game was the pitching of Schmidt and Whalen, also their hitting. Each tried to win his own game by recording two hits.

RISE AND FALL OF RALPH ROSE. "I WANT TO FIGHT" SAYS FITZ.

Fame celebrated her first anniversary of the discovery of Ralph Rose last week in Chicago. Having done very little in a sporting way for the name of Rose—of Joe Rose the bookmaker and the "Kentucky Rosebud"—Fame got a hump on herself twelve months ago. Naturally she looked for roses in California, and swooped down on the quiet hamlet of Healdsburg, where she plucked the finest-looking bud on the bushes. Ralph Rose is the bud.

Some thought it was fortune that tempted Rose to quit Healdsburg all in a minute and go to a big university. This belief may have been encouraged by the fact that this people at Ann Arbor, Mich., knew how he could put the shot before he reached the town. But it was not the surprise of the day when he flew up to San Francisco to claim this point. Suffice it to say that there was no exaggeration in the reports of what he could do.

The Michigan athletic promoters had seen many a promising star fizz in action, and they did not propose to accept Rose on his shape. As soon as he stepped off the train they handed him a sixteen-pound weight and told him to throw it. He tossed it into the outskirts of Ypsilanti, and they made him put on maize and blue sweater with a big "M" on the chest before he left the station platform.

For several months he did a turn at advertising himself, that made the "Sports Town" series look tame. He was too long for any bay they ever turned out in Grand Rapids; they had to make him step lightly to save the foundations of the university buildings; his palm was eighteen inches broad, etc., and plenty of it. One day some one asked Rose if he was any good with the gloves, and he is alleged to have expressed the famous remark that he was the only man in the world who could lick Jeffries.

This statement appeared in the papers and telegrams from "Tom O'Rourke, Parson, David Clark, Ball, John Field, Biddy Bishop, Sam Harris, Joe Sullivan, Paddy Carroll, Sam Summerville, W. A. Phelon, "Kid" Howard and Joe Macias. The offers ranged from 10 to 97 per cent. Forty-two playrights also wired "that they had completed first drafts of a sketch for the "giant, and \$11 show managers asked him for a date for the opening night.

After talking it over with some friends at the University of Michigan, Rose decided to retire from the ring, which he did in formal statement to the newspapers at the same time of sending some orders in the interests of his remains. While the display traps one or two, the incident was closed, and Rose died more because the giant went to sleep than because he was ill.

Then followed weeks of quiet, contemplation, and the quiet life. But a pretty athlete could not live his life with no exercise waiting for a while. So he went to Chicago, Albie McMahon asked the "giant" to run in New York he accepted. The

ON ALL LOCAL BOWLING ALLEYS.

At the Broadway alleys, the bowlers are having quite a lively time. The \$500 match game for tonight is drawing a great deal of interest, as the players who are to compete are some of the leading ones on the Coast. The men who will play are:

Joe Weber and L. Campbell vs. Whalen and F. Pratt. Three games will be rolled, total pins to count.

The Eagles will have a roll Friday night. The whole team is expected to be there.

A few good duck pin scores have lately been added to the credit of the Broadway alleys. Here they are:

B. Strode, 100, 110, 105; L. Campbell, 101; Weber, 116; Wilson, 116; Overman, 102.

The pool playing champions of the Broadway alleys, C. Stanley and F. Prichard, would like a match with the champions of the Syndicate alleys.

Some exciting pool games are now in prospect.

The bulletin at the Palace alleys announces the following interesting challenge:

The California restaurant challenges the Royal Club, Sacramento, for amount of money up to \$50 in game of duck pin games to be rolled at the Palace alleys.

One of the surprises in the bowling world happened last night at the Syndicate alleys, when the Buffaloes defeated the all famous Piedmont team in the second race, which ended last night. The Buffaloes will now have chance to play the champion California team of San Francisco.

The scores of the games last night are as follows:

Bowlers: With 50 pins handicap—Richards, 141; 156; Joe, 168, 209, 185; Sell, 170, 140, 155; Rogers, 193, 193, 185; Morse, 177, 187, 155; total score, 262.

Second race (seven furlongs)—Baker, 7, 16; Spondoolie, 4 to 5 second; Del Coronado, 6 third. The other starters were: Bill Bagwell, Capt. Burnett, Bill Perry, Bakersfield, Legal Form, Nov. Arasturra, San Francisco, Barou, Bolinas, Santa, Time, 314.

Second race (seven furlongs)—Baker, 7, 16; Spondoolie, 4 to 5 second; Del Coronado, 6 third. The other starters were: Bill Bagwell, Capt. Burnett, Bill Perry, Bakersfield, Legal Form, Nov. Arasturra, San Francisco, Barou, Bolinas, Santa, Time, 314.

Third race (six furlongs)—Emma Rebold, 8 to 5, won; Yellowtown, 10 to 2, second; Timnath, 11 to 5, third; Waterford, Billy Taylor, Suburban, Redan, Scratched; My Surprise, Sterling Towers, Bay Wonder, Wager, Salle Goodwin, Time, 1:18.

Fourth race (five furlongs)—Cruzados, 1 to 4, won; San Simeon, 10 second; Irene, 5, third. The other starters were: Glendinning, Time, 1:03.

Fifth race (one mile and a sixteenth)—Anvil, 8, won; Dusty Miller, 8, second; Byron, Esther, Major, 10, third; Carter, Scratched; Royalty, Colonel Anderson, F. E. Shaw, Time, 1:19.

Sixth race (one mile)—Andrew Mack, 4 to 5, won; Sourire, 8, second; Briarcliff, 5, third. The other starters were: Gateway, Harry Walter, Veteran, High Chancellor, Time, 1:14.

They make one feel as though life was worth living. Take one of Carter's 3½-mile Liver Pills after eating; it will relieve dyspepsia, aid digestion, give tone and vigor to the system.

News of the Day From Suburban Towns

TELLS OF GIRL'S LIFE IN FRENCH CONVENT.

University Professor Delivers Noteable Lecture, Regarding Culture in Paris.

BERKELEY, April 19.—Life as it is enjoyed or ordered by a wealthy French girl in a Paris convent was the theme yesterday afternoon at the University of a deeply interesting lecture by M. Robert Dupouey of the French department, who is a Parisian and thoroughly informed upon Parisian topics. The lecture, which was delivered in French, attracted a great audience in the hall in the Students Observatory.

M. Dupouey spoke in part as follows:

"At the time when the long war between church and state in France is ending by the victory of the state, it may be interesting to put Catholic education opposite to state education by two contrasting examples. Therefore, the lecturer proposes today painting the education of a girl in a stylish convent of Paris; and next Thursday, he will describe the studies of another girl in one of the laic lycées."

"Mademoiselle Simone is the imaginary name of an authentic girl, who is really living in Paris. Her grandparents, whose ancestors were driving pleasure in their small estate situated in a remote part of the province, became suddenly millionaires by a lucky series of rich inheritance; consequently, the father of Simone married a girl of a higher social rank as his own, and having removed his home to Paris, endeavored to become acquainted with the most aristocratic society of that city. His obstinacy, and his wealth, and the cleverness of his wife, helped him in succeeding partially. But he is even now feeling some condescension in the attitude of his new friends. He is with them; but he is not yet, he will never be, one of them."

"In sending their daughter to the most stylish and aristocratic convent of Paris, the so-called Curs de l'Assumption situated S. Luteck street, the parents had for their sole object to give her the company and friendship of the girls of the nobliest families, to deface, in her mind and soul, all

traces of her plebeian origin, and thus to facilitate the means of her being completely, and without any restraint, accepted by the best aristocracy of France."

"In fact, the convent took hold of Simone, so skillfully and actively, that now she is quite bent and trained to her future role of an aristocratic lady. The convent supplied her with the accomplishments necessary to a person belonging to the nobility. First, the school has rarified, as it were, humanity all around Simone, by allowing her no other companions, nor other friends than those of the young men of the highest social cast. Secondly, it has taught her, in sciences, literature, art, or ethics, only that which she will have opportunity of using in her worldly life, in the conversations of the salons. Thirdly, it has presented religion to her chiefly as a society enterprise, as a fashionable and stylish occupation, destined to bring more closely together the people of the same condition. At last, the school has shaped and polished the political opinions of Simone, so as to make that the perfect mirror of aristocratic anti-socialistic and anti-democratic, by representing such opinions to her as indiscreetly associated with a well understood religion."

Mr. Robert Dupouey then gave a circumstantial account of all those points, showing, by many instances, that the convent provides Simone with a superficial knowledge of all sorts of things so that she will never stop quite short in any talk or about any subject, and also that sometimes the school impresses on the mind of Simone some prejudices and some errors, because these are the prejudices and errors of the world in which she is to live."

In short he said, the convent has made Simone a society woman more than a woman in the broad sense of the word. She will be distinguished and bright; she will know how to talk, how to smile, how to dress. Maybe she will not know how to live. The laic lycées give the girls a stronger and more humane education. It will be the subject of the next lecture.

SOLEMN SERVICE

Holy Week Observed in Episcopal Church--Music to Be Sung.

BERKELEY, April 19.—At St. Matthew's Episcopal Church, South Berkeley, tomorrow evening at 8 o'clock, the choir, under the management of Miss Welden, will render the "Gloria" of Gounod, which is most appropriate for the solemn services of Holy Week. There will be thirty voices in the choir, and some of the best talent in church music has been secured. An address suitable to the occasion will be given by Rev. R. J. Renison of St. Paul's Church, Oakland.

There are services every morning this week in St. Matthew's. On Good Friday there will be a special service at 4 p.m., in addition to the usual one at 10 o'clock.

GLORIOUS VICTORY

Republicans Will Celebrate it Tonight at Lorin Hall.

BERKELEY, April 19.—The Republicans of Berkeley are to celebrate their recent victory at the polls by a ratification meeting to be held in Lorin Hall, Alcatraz avenue, tonight.

There will be speeches by the candidates and prominent Republicans, together with music.

A feature of the occasion will be the presentation of the handsome Republican banner to the Fifth Ward Republican Club, that ward having secured the largest percentage of Republican votes.

THREE GREAT HUNTERS.

Grover Cleveland is off on a hunting trip. President Roosevelt is now on one. And Billy Bunn is still on the same old hunt that he started several years ago—Philadelphia Teleph.

HOSTETTER'S CELEBRATED BITTERS

For restoring the stomach to its normal condition, that is, for curing so prevalent in the Spring the Bitters should be taken. It is a choice. It never fails in cases of Spring Fever, General Debility, Impaired Blood, Consumption, Dyspepsia, Costiveness or Malarial Fever.

ENJOY DANCE

Pleasure For Young People of High School and University.

BERKELEY, April 19.—A dance in which both high school and University circles participated was given last night at the hall of the Berkeley High School Alumni association. For several weeks arrangements have been in progress for the affair, which was of the nature of a reception to the graduating class of the high school.

The best music that could be secured in San Francisco had been engaged and the hall was prettily decorated.

A large number of the graduates of the local high school, who are now in the University attended the dance.

The patrons and patroneuses were Mr. and Mrs. S. D. Wetherbee, Mr. and Mrs. M. G. Jones, Mr. and Mrs. W. Clark, Mr. and Mrs. Roy L. Young, and Mr. and Mrs. J. A. Pierce.

SOCIAL CLUB HEARS LECTURE

BERKELEY, April 19.—The regular meeting of the Presbyterian Social Club was held in the church parlors last evening. Mr. Stover, instructor in the University of California, gave an illustrated lecture on irrigation, past and present.

Miss Gripe of Oakland rendered a solo, after which there was a social hour.

NEW BAND HAS MEETING

MUSICIANS OF ELMHURST COMPLETE ORGANIZATION—NEWS NOTES.

ELMHURST, April 19.—A meeting of the newly organized concert band of the place was held at the schoolhouse Monday evening. The organization was completed and officers elected for the first term. They are as follows: Master and head—Korematsu; treasurer, Frank Williamson; treasurer, Charlie Myot.

GRACEFUL ACT OF NEW MARSHAL.

"Gus" Vollmer Appoints His Predecessor to Serve, Temporarily, As Deputy.

GUS VOLLMER, MARSHALL OF BERKELEY.

BERKELEY, April 19.—Marshal Vollmer's first official act was to appoint his predecessor, Charles T. Kerns, and the latter's deputy, Bert Howard, to serve as officers until the trustees make other arrangements. A special meeting of the board will be held tomorrow night, to discuss the enlargement of the police force.

The town officials have taken up their new quarters in the First National Bank building, at the corner of Shattuck Avenue and Allston Way. More room and a better arrangement of the office have been given each department, and a few days will find them all settled in the new quarters.

On the main floor, and occupying the large room which the First National Bank recently vacated to occupy its new quarters, are located the offices of Town Clerk Merrill, Treasurer Lord and Assessor Wharf. Lord has the choice position, occupying the space within the large counter at the front of the room. Next to him and separated by a low partition is Wharf's office. Clerk Merrill has the space adjoining the large vault, which he selected for its convenience in being near to the door of the vault. The room at the rear of the Clerk's office has been added for the use of the Auditor Inspector and Auditor Turner.

On the second floor is the meeting room of the Town Trustees and the offices of Superintendent of Streets, Engineer, Justice of the Peace, Attorney and Marshal. The Superintendent of Streets and Engineer's offices are located on the southern side, directly back of the meeting room. The offices of the engineer, Edgar, Attorney John and Marshal Vollmer face on Shattuck Avenue.

Marshal Vollmer has secured two of the best rooms for his office and is attempting to secure an adjoining room, which he proposes to fit up as a sleeping apartment in order to be in a position to answer night calls. Vollmer has appointed Levi Moran as his deputy, who will attend to the duties of the office.

BERKELEY, April 19.—A banquet was given last night by the local lodge of the Order of Pendo in honor of twenty-five new members which were received by initiation. George W. Lee, the organizer of the lodge was present and complimented the drill team on the skill displayed in the initiation exercises.

After the conclusion of the speechmaking, the members and their guests spent several hours in playing card games.

PREPARE CONCERT.

Arrangements are being made for a grand concert to be given by the Danish Brotherhood May 7th. It will take place in Central Hall, and is to be called a May Festival.

The members of the lodge are all to take part. The majority will be drilled as the chorus. Others are to give vocal and instrumental solos. An orchestra from San Francisco has been engaged to play the overtures and accompaniments.

On the committee of arrangements are Juel Christiansen, Chris Simonson, M. P. Johnson, Chris Petersen and J. Jessen.

PERSONALS.

Mrs. Lester Van Horn of Santa Maria is spending a few days here as the guest of Mr. and Mrs. James E. Allen.

Tonight the Town Trustees will meet and take action on the report of the committee appointed to consult the officials of the Suburban Electric Light Company.

Attorney Ryker reported to the Board last Wednesday that it had the legal right to regulate the light rates. The committee consists of Trustees Peterson, Ramage and Kavanagh.

Meetings for practice are to be held every Wednesday evening at the schoolhouse. The instructor will be Joseph Grayson, the cornetist in Kehler's orchestra.

The constitution and by-laws of the band were formed at the meeting Monday evening.

BOYS TO CONFER

Christian Youths Plan For Annual Meeting in University Town.

BERKELEY, April 19.—Announcement has been made that the first annual conference of the boys' departments of the Young Men's Christian Association of Northern California, will be held in Berkeley this week from Saturday to Sunday inclusive, to consider various phases of the work for boys. Delegates will be met at the depot after noon and will be met at the depot by representatives of the local association and escorted to the association headquarters, where they will be assigned to their places of entertainment. It is expected that nearly one hundred delegates will be in attendance representing San Francisco, Sacramento, Stockton, Fresno, Santa Cruz and Vallejo.

The conference will be opened on Friday evening at 6 o'clock by a welcome address by the "Woman's Auxiliary and the Board of Directors.

...Next... Sunday Morning

at about 10 a.m. you will be on your way to one of the Oakland churches... By your side—your son—you will be as proud of him as we will be of you, for you and your son will surely be dressed in

HEESEMAN GARMENTS

You can tell um at a glance—easy fit—patterns just right—no one but yourself knows the price you paid either—we do and so do you—that's one reason you trade with us. Now, don't delay if you haven't bought yet. Tomorrow is a splendid chance—then Friday will do—but Saturday, that's the last day before Easter.

By the way,—did you ever have a Shirt from this store which didn't fit you? Did it pinch you in the neck? Were the sleeves too short or long? Didn't it please you in every way? Well, if it didn't just bring it back and get another one for it—our Shirts must be satisfactory.

Remember the Hat and Juvenile Departments—everything for Easter is here and ready for your donning when the church bells ring next Sunday morning.

C.J. Heeseman
107 to 113 Washington St.

PRESIDENT IN CAMP

Outsiders Cannot Reach
the Area Where Party
is Hunting.

GLENWOOD SPRINGS, Colo., April 19.—Secretary Loeb left here at 9:40 a.m. today for New Castle, where he will get a horse and ride to the President's camp. Elmer Chapman, the courier who brought news of the success of the hunt, is serving as the secretary's guide. Mr. Loeb will remain at the camp over night and return here some time tomorrow. He has taken with him a number of documents that require the signature of the President.

The Charlie Penne ranch, where the hunting party is now encamped, is in the east divide. The party will move to the west divide on Saturday or Monday, in which it is reported game is more plentiful. Before the President moves away so far it is the desire of the ranchers and of meetings, etc.

men and retainers that he visit Liberty School where their children are educated. This school is near the present camp and the children of the ranchers ride for miles to attend school. The mission of Joe Austin, who came to the springs last night with Courier Chapman, was to get Mr. Loeb to use his good offices in arranging the visit.

P. B. Stewart of Colorado Springs will leave the party at the end of this week. Mr. Loeb will expect to go to the camp and spend two days with the President.

Captain Austin told Secretary Loeb that a patrol had been organized and that it is now impossible for outsiders to reach the area over which the party is hunting.

TWO PRISONERS CREMATED

FIRE JAIL IN ATTEMPT TO ESCAPE AND RESULT IS FATAL.

NEW ORLEANS, April 19.—In an attempt to escape, three prisoners today left the parish jail at Pontchartrain, Louisiana, forty-eight miles from New Orleans, two of them being cremated.

RUSSIANS AFTER MERCHANTMEN

TOKIO, April 19.—Information received here is taken to indicate that the Russian squadron proposes staying at Kamtschatka bay until May 7, Admiral Reshetovsky, meanwhile sending out couriers to overhaul merchantmen proceeding along the true route to the straits of Formosa.

The transports accompanying the Russian squadron are reported to be plying between Kamtschatka bay and Saigon under the merchant flag of Russia.

WHEN YOU CATCH COLD

Do not take chances on it wearing away or experiment with some unknown preparation which may leave the bronchial tubes and lungs weakened and susceptible to attack from the germs of Pneumonia or Consumption.

FOLEY'S HONEY AND TAR

not only stops the cough but heals and strengthens the lungs and prevents serious results from a cold. Contains no opiates.

It Saved His Life After the Doctor Said He Had Consumption.

W. R. Davis, Vicksburg, California, writes: "There is no doubt what Foley's Honey and Tar saved my life. I had an awful cough on my lungs and the doctor told me I had consumption. I commenced taking Foley's Honey and Tar and found relief from the first and three bottles cured me completely."

Three sizes—25c, 50c and \$1.00. The 50-cent size contains two and one-half times as much as the small size and the \$1.00 bottle almost six times as much. Refuse Substitutes.

A Policeman's Testimony.

J. N. Patterson, night policeman, of Nashua, Iowa, writes: "Last winter I had a bad cold on my hands and tried at least a half-dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two-thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world."

BUNKERS IN COURT

Hears the Opening Statement of Prosecutor Seymour.

SACRAMENTO, April 19.—The trial of former State Senator Harry Bunkers is progressing here today.

The first sign of a "tiff" between lawyers in the Bunkers case occurred when Attorney Harry Morehouse asked the Court to instruct the District Attorney not to refer to the statements he might make in his opening statement as facts. Seymour showed by his rising color that he resented the imputation, but before he had a chance to reply Judge Hart replied that District Attorney Seymour had made numerous opening statements before juries, and that he needed no instructions as to his manner of doing so, and throughout the statement made by Seymour he emphasized for Morehouse's benefit his oft-repeated words, "We expect to prove."

District Attorney Seymour said the prosecution expected to prove that the defendant, Bunkers, was a member of the State Senate from San Francisco at the time the alleged offense was committed, and that he was a member of and chairman of one of the standing committees of the Senate, the Committee on Commissions and Retrenchments; that the committee had undertaken to investigate the business and affairs of certain building and loan associations, and particularly those doing business in San Francisco, and among them the Colonial, the Renters and others; that on the 21st day of January, 1895, an understanding, a conspiracy was entered into between the defendant, Bunkers, and Joseph Jordan for the purpose of extorting money from the building and loan associations.

He expected to show, he said, that on Saturday, January 21, Bunkers and Jordan went to San Francisco, and that on the ferry-boat they had a conversation in the course of which the nefarious agreement was made; that Jordan asked Bunkers, chairman of the Committee on Commissions and Retrenchments, if the committee was going to investigate the Continental Association, and that six subpoenas had or were to be issued to it and other associations, and to Clarence Grange, secretary and manager of the Phoenix Building and Loan Association.

The District Attorney said he expected to show that at the request of Jordan, Bunkers agreed to do nothing to interfere with the Phoenix Association until he (Jordan) could see Clarence Grange; that Bunkers agreed with Jordan to continue the investigation until the next day, or whenever the original idea having been to hold it Monday night. Seymour said he expected to prove that on Saturday, January 21, the conspiracy was entered into, and that the next day, or whenever the original idea having been to hold it Monday night, Seymour said he expected to prove that at the request of Jordan, Bunkers, visited Clarence Grange at his residence in San Francisco and said to him: "Hell's popping in Sacramento. Six subpoenas will be issued to the other associations, and they are going to take the next four."

He proposed to show that Grange at first refused to "do business" with the committee, and that so far as he was concerned "Nothing was to be done but to let the other associations have it at their own convenience." Seymour said he expected to show that Grange agreed with Jordan to lay the matter before the managers of the other associations, and that Jordan, after getting a definite proposition from the Senators, he proposed to show that Jordan promised to get Bunkers and French and return the next day and that Mr. Loeb and himself would meet him at the purpose of laying the plan for the Senators to get out and they are going to take the next four."

He proposed to show that Grange at first refused to "do business" with the committee, and that so far as he was concerned "Nothing was to be done but to let the other associations have it at their own convenience."
